

The design of this house is completely unbelievable. I would have never thought in a million years that I would be living in a round home! When we were contacted by Extreme Home Makeover and they asked what kind of home I was interested in I said storm proof! Needless to say I didn't even know that it existed! Now I can't thank Deltec Homes, their employees and all the wonderful volunteers enough! They will be forever friends of me and my family! Just to be able to sleep well at night not worried about how I will fix the damages from the tornado and to know that my family is safe is no longer a dream! I tell everyone that if I ever had to move I will have the same design because, I LOVE this HOUSE!!!

Thanks to Everyone at Deltec Homes for all that they have done for me and my family!

Sincerely,

Laura Usea, Westwego, LA
